Find public code for art

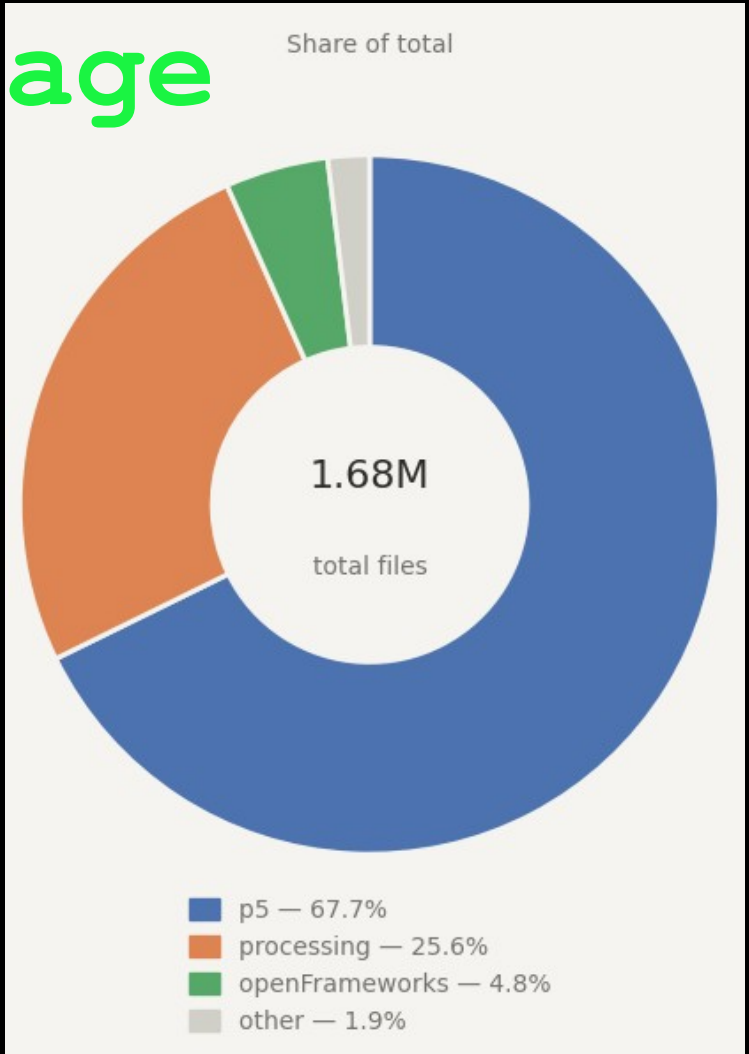
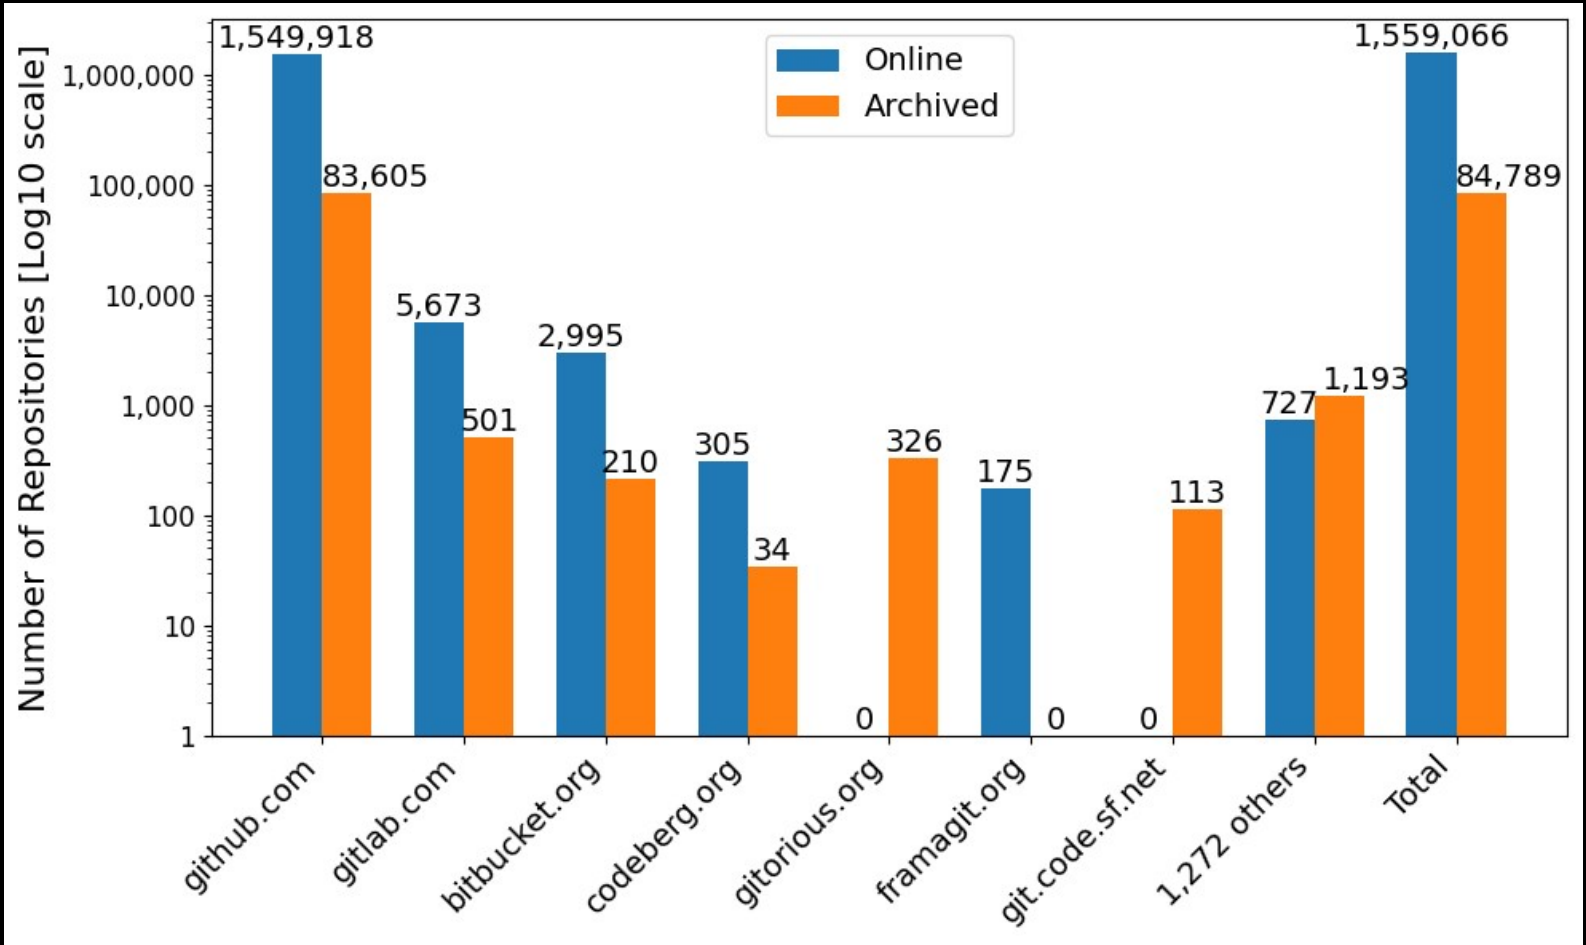
- We search for the signals in Software Heritage
  - Has been archiving public source code for 10 years
  - From Github, Gitlab, Guix, npm, etc.
  - 430M projects

Our signals in Software Heritage

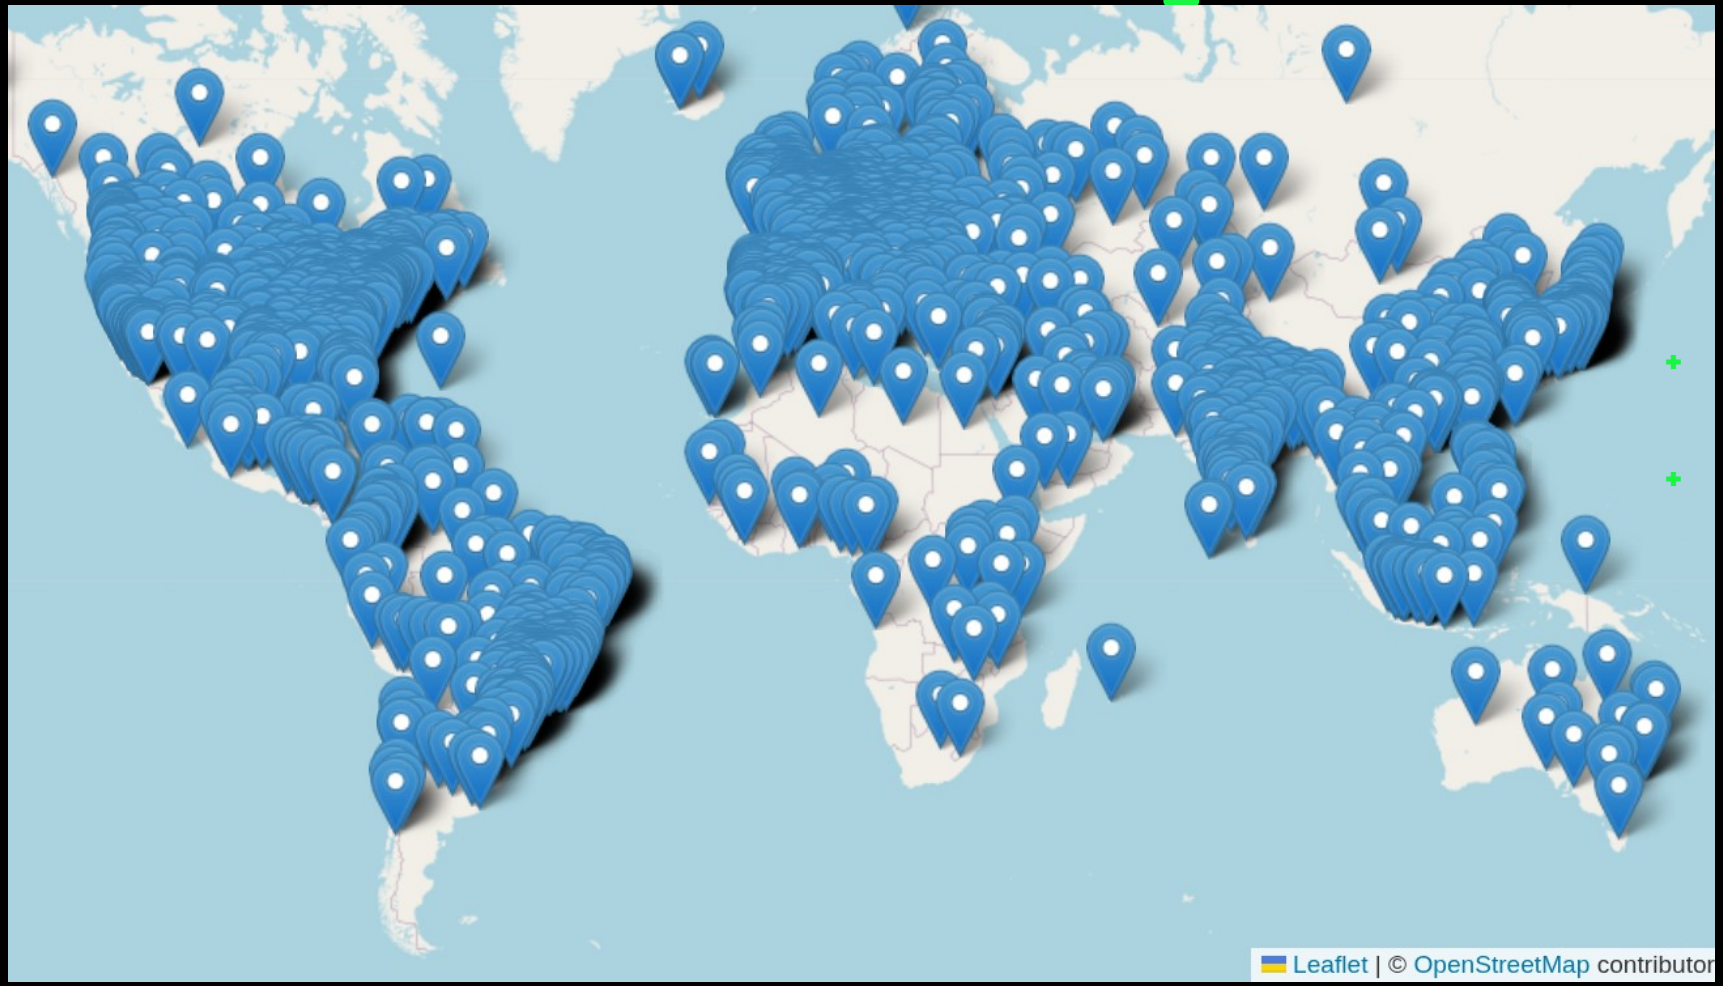
- 1.6M projects



Where is the code from

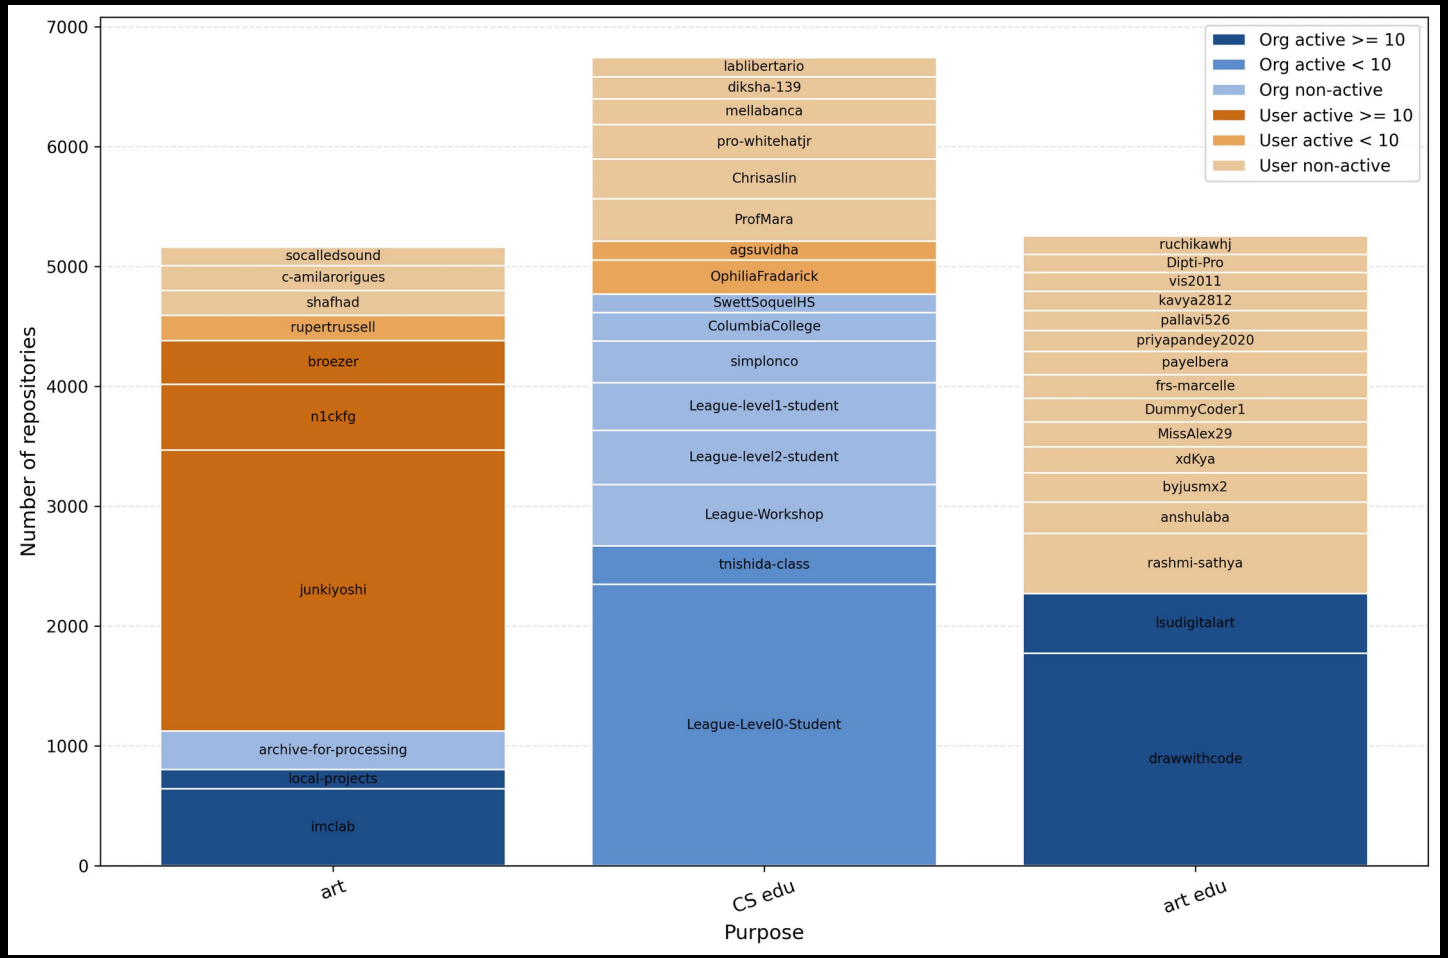


World-wide practice



- 150K repos
- 30K realisic locations

Where is the code from



- 42 Github accounts with largest number of repos
  - Artists
  - Art students
  - CS students

Conclusion

- Lots of code
  - 1.6M repos is an under approximation
  - Yet, immense
- Next step
  - Try to execute the code
